

GLENDON BOROUGH NEWSLETTER SUMMER EDITION

Hello and welcome to summer! Hope everyone is staying cool and hydrated in this heat.

If you are installing a pool this summer, please remember to contact Borough Hall to obtain the proper permits.

Spraying has been completed for weed control and potholes have been filled.

Two guiderails on Berger Road have been replaced.

A Berger Road resident is responsible for keeping the area between the Glendon Bridge and Island Park Road free of litter and debris. Those two individuals are also responsible for mowing grass and installing American flags as a tribute to the America 250 celebration. Thank You!

The Borough has received grant funds to use for repair/improvements to the interior of the Borough Hall building. We have also received grant funds for replacement parts and upgrades to our four sewer pumping stations.

The pavilion area across from Borough Hall is in need of attention. We are in the process of obtaining estimates to repair the building, remove dead trees, and trim branches which are resting on overhead wires. We are hoping to have some of that work completed before National Night Out which is on Tuesday, 8/4/26.

We are extending an invitation for you to join us at the pavilion on that date at 5PM. The Borough will provide hamburgers, hotdogs, and beverages. If you would like to bring a side dish or dessert, it would be most welcome. Please mark your calendars and join us there! We look forward to seeing you! Please RSVP to Borough Hall 610.253.1577 by Wednesday, 7/29/26 so we have enough food for everyone.

That is all I have to tell you right now. Enjoy your summer! Stay safe!

If you'd like to receive this newsletter via email, please contact us at glendonboro@rcn.com and we will include you on our email list.
